

Top 10 most popular commands for virtual assistants

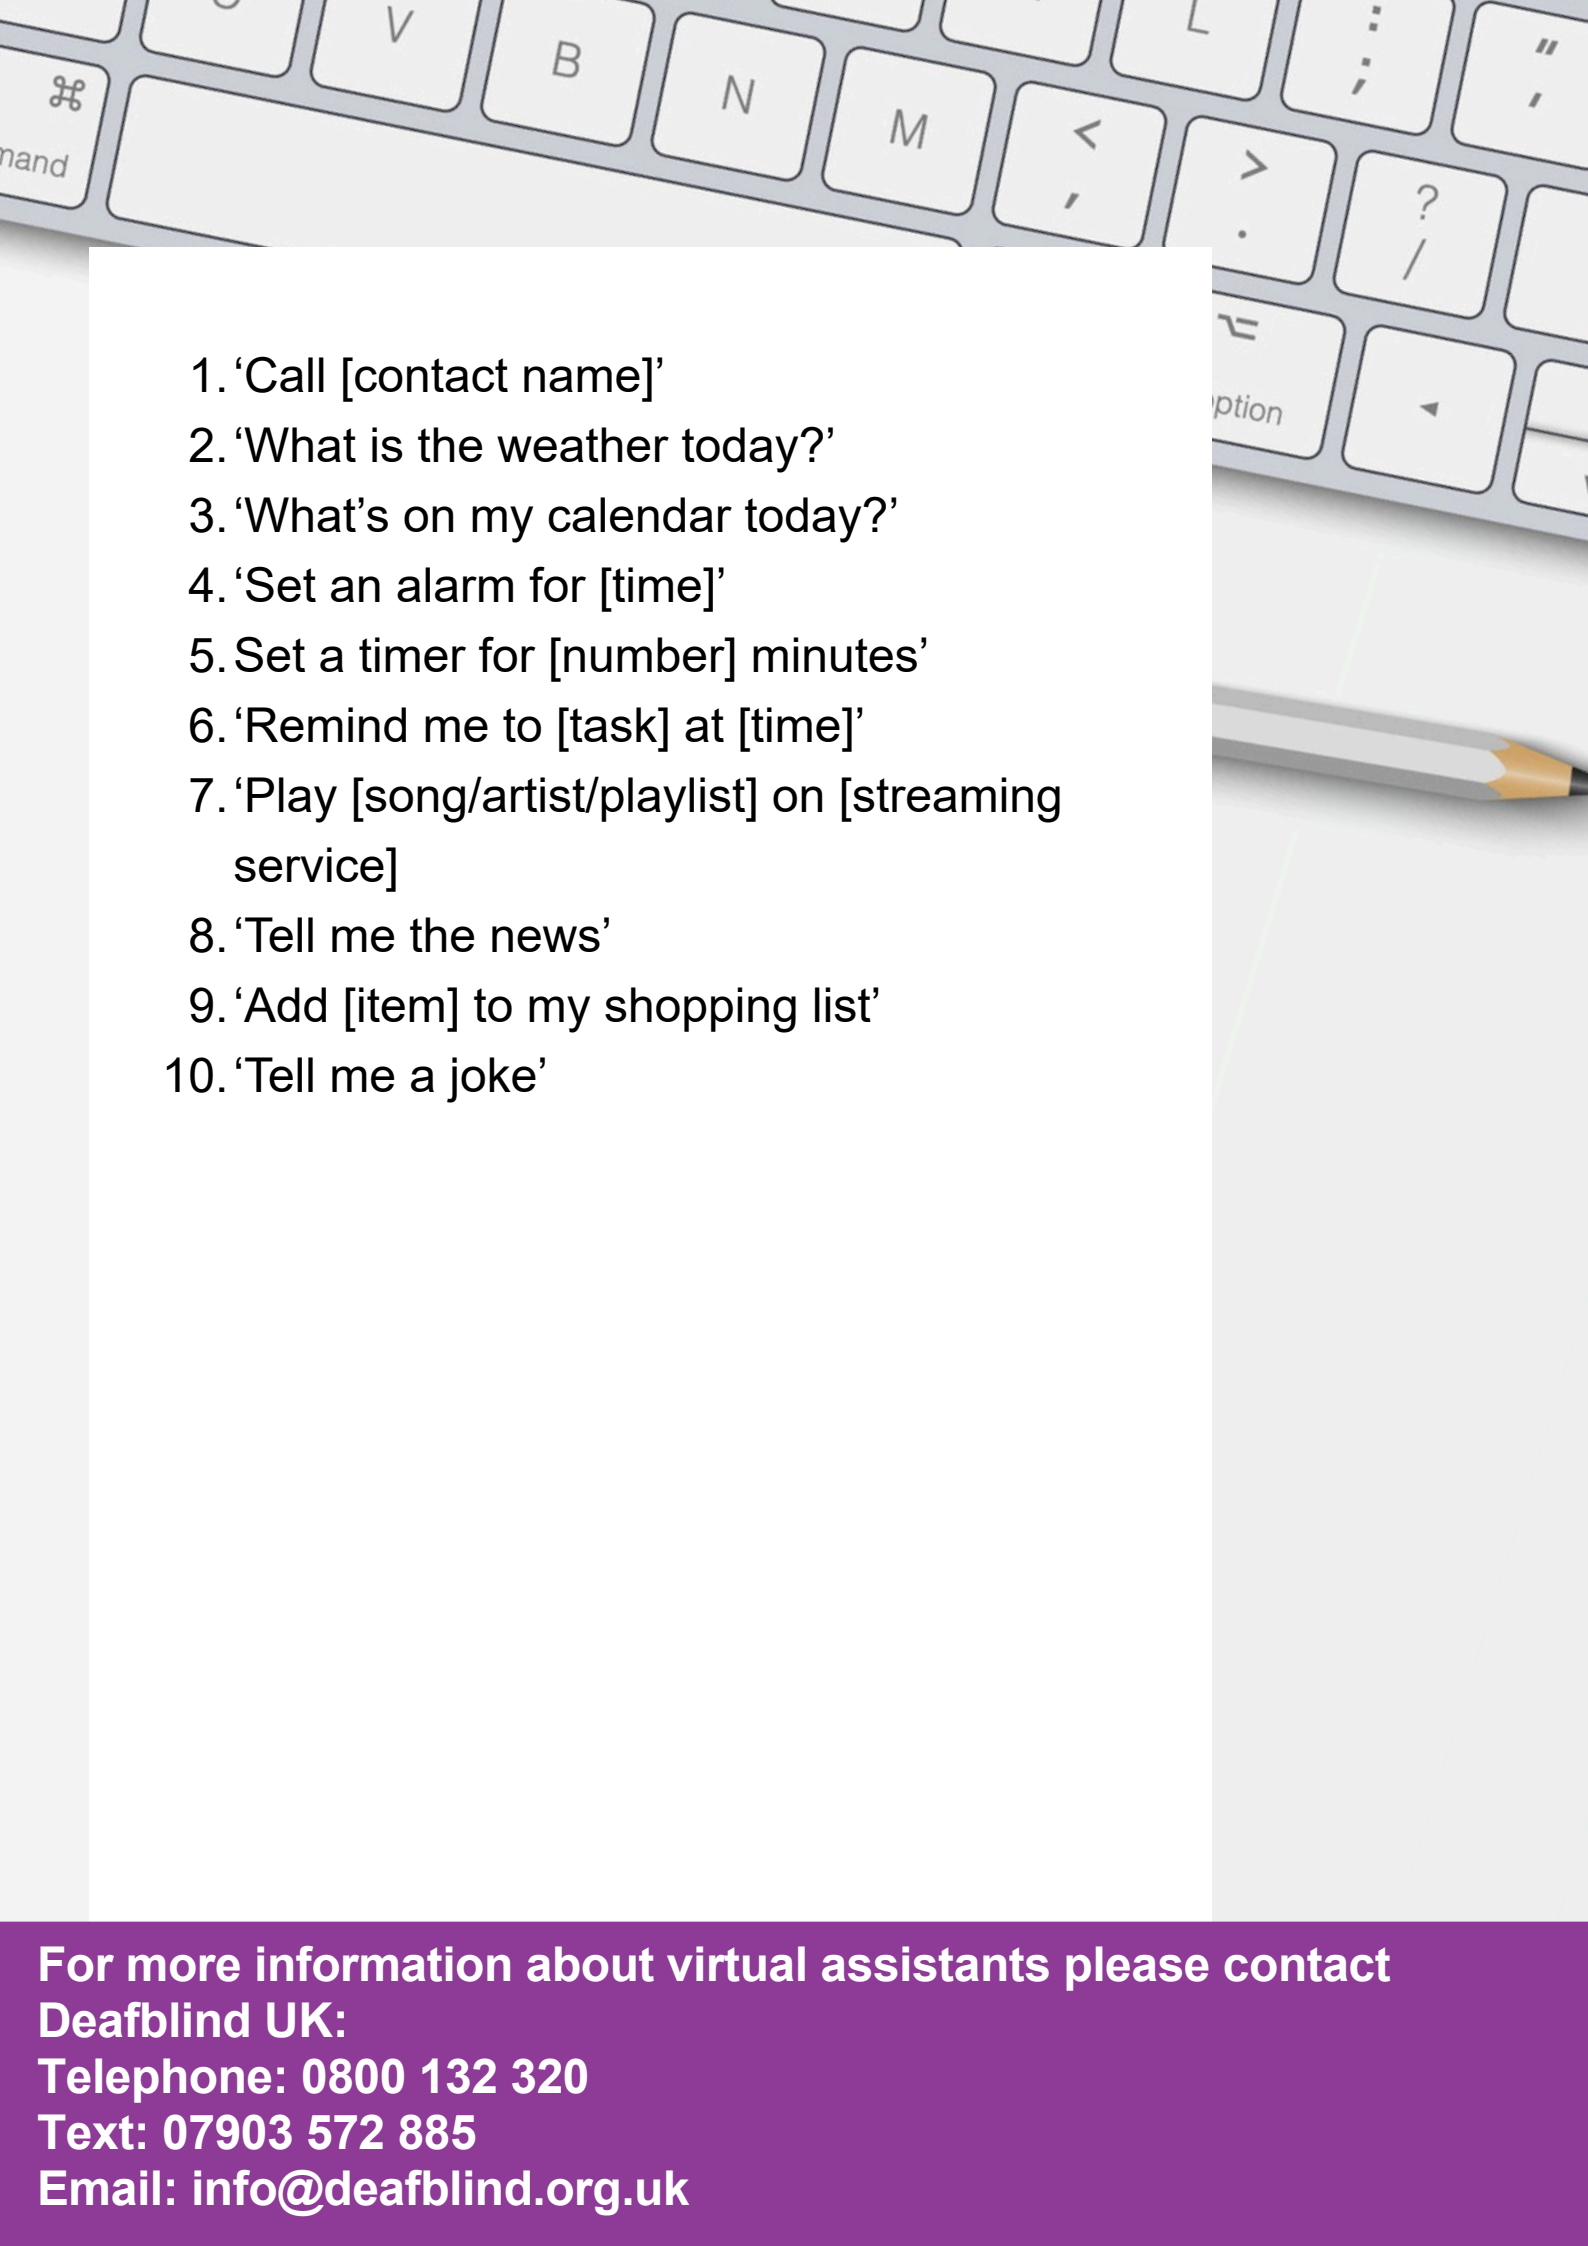

Virtual assistants can help with everyday tasks such as checking the weather, setting reminders, playing music, and answering questions.

The following top 10 commands are commonly supported across major assistants, including Siri, Bixby, Amazon Alexa, and Google Assistant.

Please note:

Before giving a command, you must first activate or prompt your virtual assistant. You can do this by saying:

- “Hey [assistant name]”
- Or simply speaking the assistant’s name (for example, “Alexa”)

- 
1. 'Call [contact name]'
 2. 'What is the weather today?'
 3. 'What's on my calendar today?'
 4. 'Set an alarm for [time]'
 5. Set a timer for [number] minutes'
 6. 'Remind me to [task] at [time]'
 7. 'Play [song/artist/playlist] on [streaming service]'
 8. 'Tell me the news'
 9. 'Add [item] to my shopping list'
 10. 'Tell me a joke'
